

# GLAFCOS MARINE introduces the most cost effective: WATER INGRESS DETECTION SYSTEM

**ONE DESIGN + ONE PRODUCTION LINE  
=  
ROBUST + COST EFFECTIVE SOLUTION**

- Proven Sensor technology used on board ships for over 30 years
- Distant cleaning from deck or elsewhere
- Distant mechanical testing from deck or elsewhere
- One complete, solid design
- One production line
- No expensive outsourcing parts

- Easy and quick installation
- Provision of all system's parts both electrical and mechanical (Junction boxes, Sensors' housings, etc.)
- User friendly control panel
